A customizable, stackable aluminum flood barrier that is a time-tested solution for flood or hurricane prone locations

The Flood Log system is designed to be resistant to impact forces + withstand high-velocity water loads. Ideal for uses where higher protection is needed. Meets ASCE + FEMA requirements.

Applications

Storefronts | Select Windows | Doors | Vehicle Access Points
STACKABLE “C” POSTS

Flood Logs are strengthened by stackable “C” shaped posts + hollow aluminum beams fitted with watertight rubber seals, ensuring maximum stability + flood protection. Each support post can easily be removed, minimizing aesthetic impact to any building.

DIMENSIONS | MATERIAL | IMPACT RESISTANT
